PyCon PL 2015

Typical use-case

- A snake uses low-level C module to digest a meal
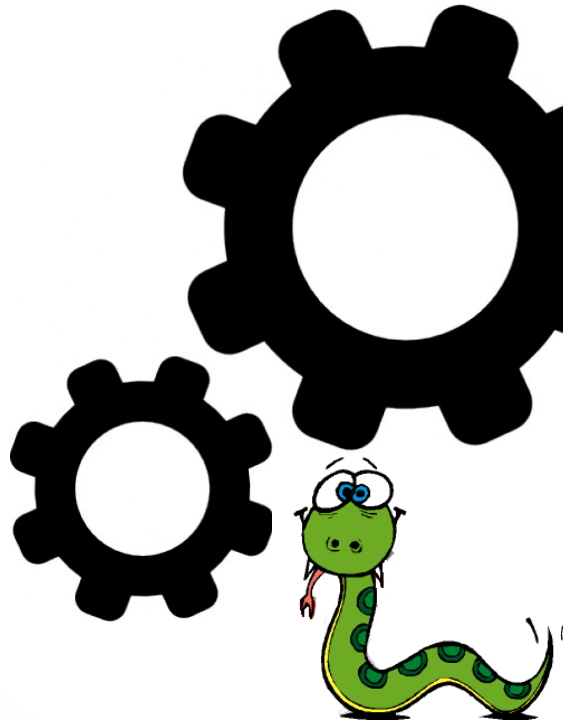

Ask not what C can do for Python,

Ask what Python can do for C

Not your typical day-to-day use-case

- A C module requests an awesome ninja-snake to do some dirty work - agent **double-0-~~seven~~   snake**

So what do we need?

- Python headers
- Static python lib
- Our awesome python module
- A wrapper for our awesome python module
